Date/Time: Fri 01/23/2015 08:27

Patient Name: Martinez, Rosie
MRN#: 874216

Attending Physician: Ambert Louis, MD

Provider: Nikeda Givens, PA

Diagnosis: Assault by other specified means
Pain in limb

Disposition: Discharged to home or self care (or in Custody)

Tests Performed: Pregnancy, Qual, Urine POC, Bilateral Hand DX Routine

Procedures: Splinting

Your doctor's instructions:

You were seen in the emergency room for injury to your thumbs. Your x-rays are normal. A copy of the results have been given to you.

Please take Motrin as prescribed for pain and swelling. Keep the splint on until you are seen by the hand specialist. Follow up in Hand clinic at Elmhurst Hospital, we will call you with an appointment date and time.

Return to the emergency room if you experience worsening of your symptoms including worsened pain, worsened swelling, or any other concerning symptoms.

Medications: albuterol, omeprazole

In the ED we gave you the following new prescriptions:

Ibuprofen 1 tablet by mouth every eight (8) hours as needed
process if pain

Important Notes:

Remember to take your medications, including any new prescriptions, as instructed today by your doctor. You are being discharged from the Emergency Department, but your doctor wants you to receive additional care within the next As Scheduled clinic.

Please contact your primary doctor, or follow up in the clinic indicated. You can make an appointment to be seen in the clinic by calling 718-883-3131. (If you need to follow up in Gynecology/Obstetrics, please call 718-883-3244 instead).

Please note that if you do not follow these instructions and follow up plan, you are putting your health at risk and your condition may worsen.

If your symptoms are not improving, or begin worsening, contact your primary doctor. If you believe it is an emergency, please return to the Emergency Department or call 911. If you have any questions, feel free to ask your doctor before you leave.
